INTERPRETER OF LIGHT

selène®

Il nome Selène, in greco, è la personificazione della Luna piena, il cui etimo significa "la risplendente": questa luce, che ha affascinato gli uomini per millenni, divenne il simbolo della missione aziendale, iniziata alla fine degli anni '60 in quella provincia veneziana che fu per secoli la migliore interprete della luce per arredare e per abitare.

The name Selène, in Greek, is the personification of the full Moon, whose etymon means "the shining": this light, that has intrigued humanity for thousands of years, became the symbol of the company's mission, initiated during the Sixties in the province of Venice which has been the foremost producer of home lighting for centuries.

TRADITION AND DESIGN

In oltre 50 anni di attività, Selène ha conosciuto uno sviluppo nel mercato interno e internazionale che la pone in una posizione importante nel mondo dell'illuminazione.

La sua capacità di sposare la tradizione dell'arte del vetro con la costante attenzione all'evolversi del design, le consente di proporre collezioni di prima qualità sempre aggiornate rispetto alle ultime tendenze del segmento contemporaneo dell'illuminazione.

In over 50 years of business, Selène has seen both its domestic and international markets expand considerably, placing itself in an important position in the lighting world. Its adroit blend of glassmaking tradition and its shrewd attention to the design developments has enabled the firm to create first-class, modern lighting collections.

THE BLOWN GLASS

Selène oggi è una realtà di primo piano nel settore dell'illuminazione per interni e ha un rapporto privilegiato con alcuni dei migliori maestri vetrai di tradizione muranese, il che assicura all'azienda la possibilità di creare manufatti di vetro di grande qualità: la famosa "miscela vetrificabile" di sabbia, soda e polvere di minerali non è una formula rigida ma, come per il colore nella pittura, una combinazione speciale che, in dosi differenti, produce effetti molto diversi per leggerezza, luminosità, trasparenza, colore. Queste mille combinazioni sono il segreto dei maestri vetrai, tramandato veramente di padre in figlio.

Nowadays, Selène is one of the most important names in the Italian indoor lighting industry and has an excellent on-going relation with many of the best Murano glass-makers, allowing the Company to create blown glass quality products: the famous mixture of sand, soda and mineral powder is not a strict formula, as with paints, it is a special combination that can be mixed in different doses to produce an array of different weights, brightness, transparencies and colours. The mystery of these thousand combinations is known only to master glassmakers, who hand it down from generation to generation.

BENT GLASS

Il marchio Selène è una garanzia per i clienti riguardo all'alta qualità dei prodotti forniti, realizzati a mano nel rispetto della tradizione e delle più recenti normative del settore: con decenni di esperienza, l'azienda ha sviluppato infatti una varietà di processi utili alla creazione di stampi unici che forniscono una maggiore qualità alla superficie del vetro, delle tolleranze ridotte e delle forme più complesse.

The Selène brand is a client's guarantee of high quality products that are handmade with traditional skills, yet meeting the latest industry standards: with decades of experience, the company has developed a variety of unique mold processes to provide enhanced glass surface quality, stricter tolerances and more complex shapes.

METAL

La vasta gamma di collezioni complete è appositamente pensata per soddisfare le diverse esigenze del pubblico, inserendosi sia negli ambienti tradizionali sia in quelli più moderni, che richiedono un design di classe e alla moda: è per questo che Selène utilizza anche il taglio laser del metallo che permette di raggiungere un alto livello di precisione e qualità costruttiva, creando piccole opere d'arte con decorazioni e forme uniche.

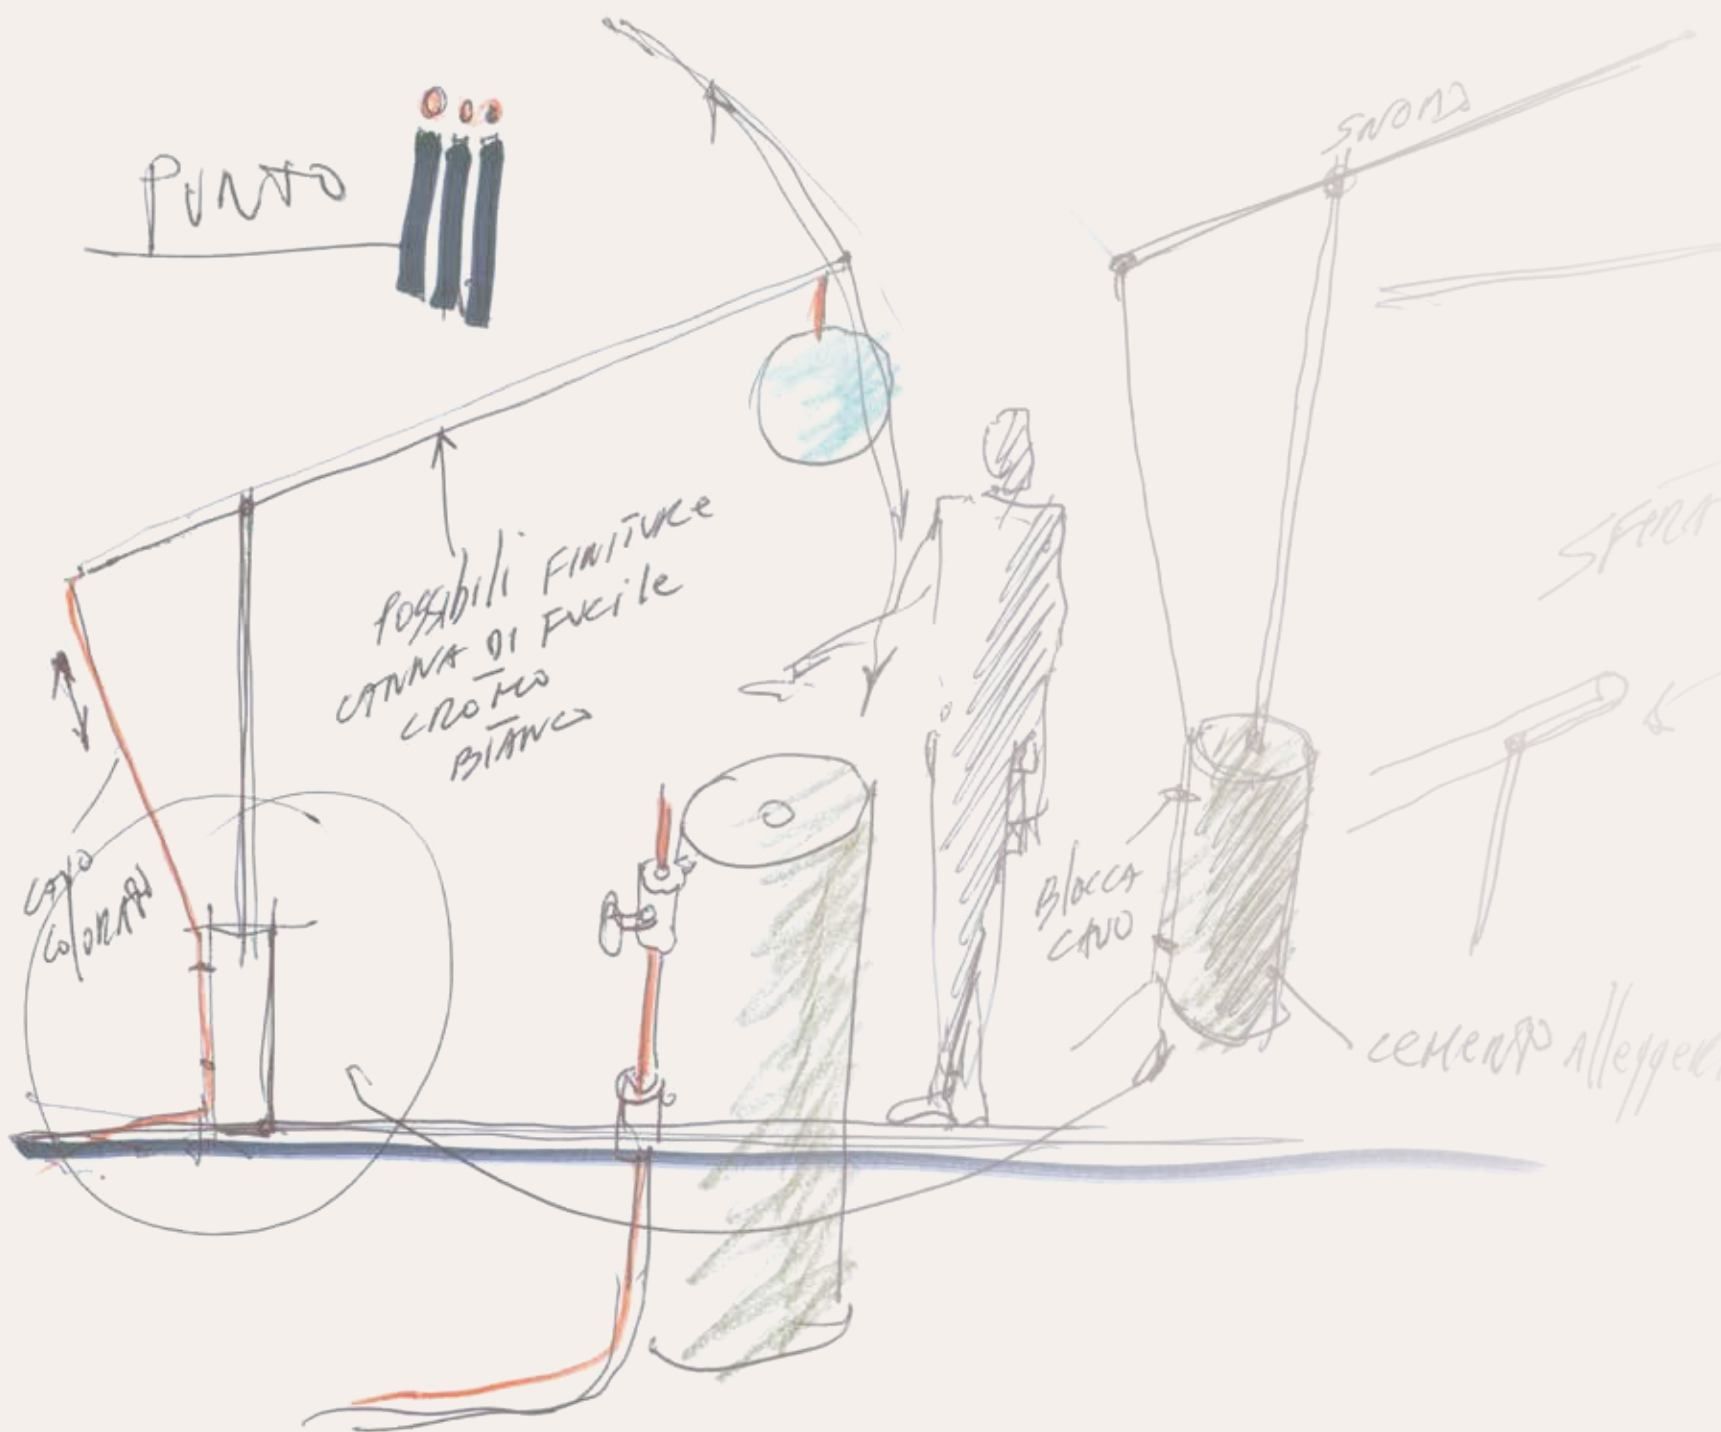

The notable Selène's range of products has everything to complement both traditional and updated surroundings: that's why the Company uses also metal laser cutting technology that allows to achieve a level of precision and build quality at unbeatable value, creating stunning art pieces with unique decorations and shapes.

CONTRACT SOLUTION

Infine, l'azienda ha potenziato il suo reparto tecnico e contract in modo da essere in grado di creare apparecchi di illuminazione personalizzati in base ai disegni del cliente o al proprio disegno regolato sempre dalle esigenze del cliente, ampliando la varietà di materiali utilizzati sino a qualche tempo fa (con tessuto, polycarbonato e resine) e delle sorgenti luminose, incorporando il knowhow necessario per un uso efficiente dei LED. Selène garantisce una solida base quindi, non solo per la qualità del prodotto, ma anche per l'intero servizio di progettazione e vendita.

Moreover, the company has strengthened the technical and contract department in order to be able to create custom lighting fixtures, according to the customer's drawings or to its own design regulated by the needs of the client, expanding the variety of materials used so far (with fabric, polycarbonate and resins) and of the lighting sources, incorporating the necessary know-how to an efficient use of the LEDs. So Selène guarantees a solid base not only for product quality but also for its entire planning and selling service.

「La luce è energia,
non soltanto
un mezzo per vedere
e distinguere le forme,
ma vera creatrice di spazio」

The light is energy,
not only a means
to see and distinguish shapes,
but a true creator of space.

ALASKA

*purezza
sospesa*

Alaska, l'essenza della luce sospesa, celebra la purezza del vetro Pyrex con composizioni che fluttuano nello spazio, in eleganti sospensioni e raffinati lumi da tavolo. Ogni pezzo esprime la luce attraverso tre finiture di vetro – trasparente, fumé e ambra – che si fondono con dettagli in cromo, cromo scuro e oro satinato. Alaska trasforma ogni ambiente in un'opera luminosa, portando un tocco di design senza tempo e una presenza delicatamente sofisticata.

Alaska, the essence of suspended light, celebrates the purity of Pyrex glass with designs that float effortlessly in space, from elegant pendant compositions to refined table lamps. Each piece radiates light through three glass finishes—clear, smoked, and amber—that blend with details in chrome, dark chrome, and satin gold. Alaska transforms every setting into a luminous work of art, bringing a touch of timeless design and delicate sophistication.

ORIGAMI

*vetro ispirato
al Liberty*

Collezione che nasce dalla trasposizione dello stile Liberty e delle sue linee eleganti e stilizzate all'interno di uno stampo, per creare un vetro soffiato assimilabile ad un'opera d'arte. Origami si declina in una sospensione ed in una lampada da tavolo, entrambe disponibili in vari colori.

Collection that stems from the transposition of the Art Nouveau style and its elegant and stylized lines into a mold in order to create a blown glass comparable to a work of ART. Origami comes in a suspension and a table lamp both available in various colors.

DESIGN

FILIPPO MAMBRETTI

GUAZZA

*sinuosità
minimale*

Famiglia di lampade descritte da un design minimale, al contempo organico e sinuoso. La sfera di vetro illuminante è ispirata alle gocce di rugiada e sembra lievitare sorretta da un esile stelo in lamiera curvata che, avvolgendola quasi a proteggerla, ne riflette in parte la luce facendo risaltare le forme curve della lampada attraverso sfumature e riflessioni. Il piedistallo, nelle versioni da terra e da tavolo, è stato pensato in marmo nero Marquina per stabilizzare la struttura, ma anche per creare un dettaglio materico che spiccasse per eleganza, riuscendo a valorizzare l'intero design del prodotto.

Family of lamps described by a minimalist design, at the same time organic and sinuous. The lighting glass sphere is inspired by the drops of dew and seems to float supported by a slender stem of curved metal sheet that, by wrapping the sphere almost to protect it, partly reflects the light bringing out the lamp's curved shapes through shades and reflections. The pedestal, for the floor and table lamps, was thought in Marquina black marble in order to stabilize the structure, but also to create a material detail that stood out for its elegance, managing to enhance the entire product design.

COSTARICA

*un soffio
di eleganza*

Raffinata collezione in vetro soffiato basata su una forma longilinea strutturata da lunghe coste di vetro, che fungono da paralume diffusore per le sospensioni o da base per la lampada da tavolo.

La leggerezza del design e la trasparenza del vetro lavorato artigianalmente donano alla luce una presenza delicata ma scenografica, trasformando ogni ambiente con un soffio di eleganza.

Refined blow glass collection based on a slender shape structured by long ribs of glass, that act as lampshade for the suspensions or base for the table lamp.

The lightness of the design and the handcrafted transparency of the glass give the light a delicate yet striking presence, transforming any space with a breath of elegance.

NEVADA

*geometrie
di luce*

Evoluzione naturale della serie POP-UP, la nuova collezione NEVADA reinterpreta il concetto di plafoniera con un linguaggio materico più sofisticato. Le superfici in vetro, caratterizzate da rilievi geometrici ottenuti tramite incisioni parallele o inclinate, creano un raffinato gioco di luci e ombre che dona profondità e dinamismo alla forma. Il design mantiene la pulizia delle linee quadrate e rettangolari, arricchendosi di texture che esaltano la qualità artigianale del vetro. NEVADA è disponibile in diverse configurazioni e finiture, offrendo soluzioni versatili per ambienti contemporanei che cercano un tocco di eleganza e innovazione.

Building upon the success of the POP-UP series, NEVADA introduces a refined evolution in ceiling lighting design. This new collection features glass surfaces adorned with subtle, parallel or inclined grooves, creating intricate geometric patterns that interact beautifully with light and shadow. While preserving the clean, square and rectangular forms of its predecessor, NEVADA enhances visual depth and texture through its sophisticated glass craftsmanship. Available in various configurations and finishes, NEVADA offers versatile solutions for contemporary interiors seeking a blend of elegance and innovation.

PAPIRO

*contemporanea
e versatile*

Papiro è una collezione incredibilmente ricca e versatile, che raccoglie tutte le tipologie di lampade articolate in diverse varianti di forma, dimensione e numero delle fonti luminose. Il diffusore, dalla particolare forma, è in cristallo extra chiaro ed è disponibile nella versione satinata, in quella con foglia oro o argento, oppure con un decoro lucido incamiciato, sempre bianco all'interno e bianco o colorato all'esterno.

Papiro is an incredibly rich and versatile collection that gathers all types of lamps offered in different shapes, sizes and number of light sources. The shade, with a special shape, is an extra-clear glass and is available in satin, with gold or silver leaf or with a glossy layered decor, always white in the inner part and white or coloured in the outside.

PANAMA

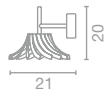

*ispirata
alla natura*

Panama, collezione il cui paralume ricorda il copricapo in fibre di palma intrecciate dell'America Centrale, da cui ne deriva anche il nome. Tale forma è ottenuta da una lamiera di metallo, opportunamente tagliata al laser, che genera un'ampia falda sfrangiata, proposta in tre varianti dimensionali crescenti.

Panama, a collection whose lampshade resembles the woven palm fiber hat of Central America, from which it also takes its name. This shape is crafted from a metal sheet, precisely cut with a laser to create a wide, frayed brim, available in three increasing size options.

LOUVER IONICA

*design
affascinante*

Sia che si tratti di una lampada a sospensione che di un'applique, questa collezione offre uno stile elegante e fluido, che cattura l'attenzione in qualsiasi ambiente. Il design è caratterizzato da fasce giustapposte con maestria per creare forme fluide e compositive, esaltate da suggestivi giochi di luce. Il vetro bianco satinato si alterna sapientemente alle fasce metalliche, disponibili in una gamma di colori tra cui bianco e bronzo, offrendo anche varie finiture, come foglia oro e argento.

Whether it's a pendant lamp or a wall sconce, this collection offers an elegant and fluid style, that captures attention in any environment. The design is characterized by skillfully juxtaposed bands to create fluid and composite shapes, enhanced by suggestive light effects. Satin white glass alternates expertly with metal bands, available in a range of colors including white and bronze, also offering various finishes such as gold leaf and silver leaf.

ART&LIGHT

*opera d'arte
luminosa*

Le opere Art&Light mettono in relazione sorgenti luminose con speciali pannelli artistici texturizzati, realizzati interamente a mano con esclusive tecniche decorative. Grazie alla loro superficie riflettente, questi quadri luminosi ed illuminanti donano all'ambiente effetti cromatici singolari e particolarmente suggestivi. Dalle versioni standard si arriva sino alle creazioni più estreme, con dimensioni, colori e forme altamente personalizzabili: il risultato è sempre quello di un oggetto emozionale e unico, capace di arricchire i diversi stili decorativi dei vari ambienti, grazie alla flessibilità della realizzazione dell'opera Art&Light stessa.

The Art&Light works correlate light sources with special artistic textured panels, entirely handmade with unique decorative techniques. Due to their reflective surface, these bright and illuminating canvas give to their location unique and particularly suggestive chromatic effects. From the standard version you get up to the most extreme creations, with sizes, colours and shapes highly customizable: the result is always a distinct and emotional object, able to enrich different decorative styles of the various environments, thanks to the flexibility of the realization of the Art&Light itself.

DESIGN ARMANDO D'ANDREA

AY

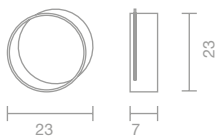

*eclissi
di luce*

L'intersezione è la parola chiave per Ay (luna in turco), un'applique a led semplice, ma al contempo elegante e senza tempo. Due circonferenze perfette si intersecano creando effetti prospettici di pieni e vuoti, così come si intrecciano due materiali entrambi forgiati dal fuoco: il vetro ed il metallo.

Intersection is the key word for Ay (moon in Turkish), a led wall lamp simple, but at the same time elegant and timeless. Two perfect circles intersect themselves creating prospective effects of full and empty, as long as glass and metal intersect, both materials forged by fire.
